MORNING, ♡ SABUROU-KUN. ♡
Here you go ♡
munch munch
It's strange ...lately his remarkable attacks don't come at all.
As for me, I'm still not completely relieved...
He originally wasn't, but...
unexpectedly, he's become cute, when originally he wasn't...
Smile ♡
...but he says weird things.
Lately, Saburou doesn't remember some things...
WHY ...?
I haven't kept up with the production increase
